Dear BC900XL owner:

This notice is sent to you in accordance with the requirements of the U.S. National Traffic and Motor Vehicle Safety Act.

In July 2016 and January 2024, owner notifications were sent regarding the above-referenced product safety recall. We have not received confirmation that all the machines have been updated. To read more about this potential safety hazard, a copy of the first notice is included for your reference. **Note: If Vermeer learned of your ownership after mailing of the first notice, this will be your first notice.**

Vermeer has decided that a defect, that relates to motor vehicle safety, exists in certain model year 2012-2016 Vermeer brush chippers.

Our records indicate that the product safety update **may not** have been installed on your Vermeer BC900XL brush chipper.

If the kit has **not been installed**, please contact your independent, authorized **Vermeer dealership** immediately to arrange a mutually acceptable time and location to have your machine upgraded **at no cost** to you for labor or materials. The installation of this kit is estimated at 3 hours of labor. If the Vermeer dealer travels to the unit to install the kit, costs may be incurred by the owner. **You must have your machine upgraded for these safety features.**
