Esta reparación de retiro es **GRATIS**.

JOHN SMITH
123 STREET RD
ANYWHERE, OH 12345-1234

A component in your rear suspension is dangerous. It must be repaired.

Your vehicle is affected by an **urgent safety recall**. The threads on your rear lower suspension arm in your vehicle can wear over time, causing the arm to separate, which could result in a loss of vehicle control and a crash. It is urgent that you have this repaired immediately for your safety and the safety of your passengers.

Your dealer will replace both suspension arms and encase them in epoxy.

You may have had a similar recall completed previously. However, this is a different recall and you **MUST** get this urgent safety recall repair completed.

Your safety is a top priority at Toyota. We sincerely apologize for the inconvenience this recall may cause you. Thank you in advance for your prompt attention to this urgent safety recall.
