KEY INFORMATION

- Your vehicle is involved in an important safety recall
- Your safety is important to us. Schedule an appointment to have service procedure completed
- This procedure will be performed free of charge

Recall Number 16S39 - Fuel Conditioning Module Bottom Cover Replacement
and Description:

What is the Issue? On your vehicle, the fuel conditioning module protective shield may be dislodged by road debris or water spray, leaving the fuel drain plug unprotected and susceptible to unintended opening. This could lead to air ingress into the fuel system or a substantial fuel leak. Air ingress through the fuel drain plug into the fuel system may cause engine stumble or other driveability symptoms. A fuel leak in the presence of an ignition source may increase the risk of fire. In addition, under certain conditions, significant liquid fuel on the road surface may cause a slip hazard, increasing the risk of a crash.

What Are We Asking You To Do? Please contact your dealer to schedule an appointment to have this important service procedure completed. If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps and driving instructions.

The vehicle owner is responsible for having this service action performed. Ford Motor Company reserves the right to deny coverage for any vehicle damage that may result from failure to have this recall performed on a timely basis. Therefore, please have this recall performed as soon as possible.

Service Assistance: If you have additional questions, please contact the Ford Motor Company Customer Relationship Center at 1-866-436-7332 and one of our representatives will be happy to assist you.
