**THIS NOTICE APPLIES TO YOUR VEHICLE**  
**RECALL 161018REV**  
**NHTSA RECALL CAMPAIGN 16V784**  
**Third Notice – May 2017**

Dear Valued Holiday Rambler Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REV Recreation Group, Inc. (REV) has decided that a safety defect which relates to motor vehicle safety exists in certain model year 2015-2016 Holiday Rambler brand Vacationer Class A motor homes.

**WHAT IS THE PROBLEM?**

On motor homes affected by this recall, the front truss may have inadequate support at its attachment points, which could cause it to sag. If wire harnesses or hydraulic lines are routed between the truss and its supporting framework, they could become pinched or crushed. A damaged wire harness can result in an electrical short, which can result in intermittent operation of electrical systems, vehicle "shut down" and/or lead to a fire, and may result in loss of vehicle control, injury or death. A damaged hydraulic line may cause a hydraulic fluid leak, which may result in fire or personal injury.

**WHAT SHOULD YOU DO?**

Please make certain your motor home is immediately inspected and repaired by contacting an **authorized REV Recreation Group, Inc. dealer**.
