Involved Region or Country	This program applies to U.S. dealers only and is designed to help facilitate higher completion rates for the safety recalls and vehicle models identified above.
-----------------------------------	--

The National Highway Traffic Safety Administration (NHTSA) is overseeing efforts across all vehicle manufacturers to help improve completion rates for the Takata air bag recall. In support of this initiative, General Motors implemented a Takata Completion Rate Improvement Program on October 1, 2017. The program officially ended on December 31, 2017, but was extended through February 28, 2018 with modifications and then eventually extended through July 31, 2018.

Please be advised that the program has now been extended through December 31, 2018.

The program is designed to encourage dealers to actively follow-up with affected vehicle owners and assist them with scheduling a service appointment so that this serious safety defect can be corrected as quickly as possible.

\$50.00 Dealer Completion Bonus

The \$50.00 dealer completion bonus remains in effect for the replacement of Takata air bag inflators. To qualify for the bonus, the recall repair must be performed at a GM dealership from January 1, 2018 through December 31, 2018 and the used air bag inflator returned as per applicable shipping instructions. The GM recalls and vehicles identified in the following table are eligible for the \$50.00 dealer completion bonus.

28811	Takata Driver Air Bag	Saturn	Astra	2008-2009

For each eligible Takata air bag recall repair performed at a GM dealership from January 1, 2018 through December 31, 2018, dealers should submit for a \$50.00 dealer completion bonus via the GM Global Warranty System. Check the appropriate recall bulletin in the electronic Service Information (eSI) system for detailed submission instructions.

Courtesy Transportation Reimbursement

Even though the involved vehicles are well beyond courtesy transportation eligibility guidelines, dealers are authorized to provide alternate transportation to affected vehicle owners while their vehicle is at a GM dealership for completion of an eligible Takata air bag recall between January 1, 2018 through December 31, 2018. This could include one-way or two-way shuttle service, one half-day vehicle rental or one full-day vehicle rental with maximum reimbursement capped at one full-day vehicle rental.

The availability of courtesy transportation to these vehicle owners is very important in encouraging them to make their vehicle available as soon as possible for this serious safety related repair. When scheduling service appointments, it is imperative that dealers make sure these vehicle owners clearly understand that some form of courtesy transportation is available and will be provided at no charge while their vehicle is being repaired. The GM recalls and vehicles identified in the following table are eligible for courtesy transportation reimbursement.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
