The rear-facing dinette seat has mistakenly been equipped with seatbelts to accommodate two individual passengers. These seatbelts must be removed; the rear-facing dinette seat must be reinstalled and the label Part Number "AD-09W" before sale or lease of the affected VIN. Your service department may claim the work against the following repair code: **30-005015**

Once the seatbelts have been removed from the vehicle and the claim has been submitted to Georgetown's Warranty and Service Department, the vehicle may be sold/leased and delivered to a retail customer.
