

IMPORTANT SAFETY RECALL

S07 / NHTSA 16V-047

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx).

This interim notification letter is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2008 and 2009 model year Dodge Grand Caravan, Chrysler Grand Voyager, Chrysler Town & Country and 2009 model year Dodge Journey vehicles.**

The problem is... The Occupant Restraint Control (ORC) module on your vehicle may malfunction due to corrosion of the power supply integrated circuit. This could result in an illuminated airbag warning lamp with the possibility of no airbag deployment in a crash necessitating airbag deployment or an inadvertent airbag deployment without an illuminated airbag warning lamp. Either of these conditions could increase the risk of a crash and/or injury to front seat vehicle occupants.

What your dealer will do... FCA intends to repair your vehicle free of charge (parts and labor). However, the parts required to provide a permanent remedy for this condition are currently not available. FCA is making every effort to obtain these parts as quickly as possible. At this time FCA estimates parts will be available in the 2nd quarter of 2017. FCA will contact you again by mail, with a follow-up recall notice, when the remedy parts are available.

What you must do to ensure your safety... Once you receive your follow-up notice in the mail, simply **contact your Chrysler, Jeep, Dodge, or RAM dealer right away** to schedule a service appointment.

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Recall Assistance Center at 1-800-853-1403.

Please help us update our records by filling out the attached prepaid postcard if any of the conditions listed on the card apply to you or your vehicle. If you have further questions go to **recalls.mopar.com**.
