

## IMPORTANT SAFETY RECALL

S09 / NHTSA 16V-114

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxx).

This interim notification letter is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2015 model year Chrysler 200 vehicles**.

***The problem is...*** The Occupant Classification Module (OCM) / Seat Cushion Foam (SCF) on your vehicle may have been serviced with a kit that may not have been calibrated correctly. The OCM and SCF are calibrated together during the manufacturing process as a matched set. An improperly calibrated OCM/SCF service kit has the potential to not deploy a passenger seat airbag at the proper stage for the passenger seat occupant. This could increase the risk of passenger seat occupant injury during a crash.

***What your dealer will do...*** FCA intends to repair your vehicle free of charge (parts and labor). However, the parts required to provide a permanent remedy for this condition are currently not available. FCA is making every effort to obtain these parts as quickly as possible. **FCA will contact you again by mail, with a follow-up recall notice, when the remedy parts are available.**

***What you must do to ensure your safety...*** Once you receive your follow-up notice in the mail, simply **contact your Chrysler, Jeep, Dodge, or RAM dealer right away** to schedule a service appointment

***If you need help...*** If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Group Recall Assistance Center at either **fcarecalls.com** or 1-800-853-1403.
