

IMPORTANT SAFETY RECALL

This notice applies to your vehicle (VIN: **ZFF65LJA0B0181433**).

RC 60 / NHTSA 16V-341

Dear Mario S Moreira,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Ferrari has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2009-2011 Ferrari California and Model Year 2010-2011 458 Italia vehicles equipped with a passenger-side front air bag manufactured and supplied by Takata Corporation. We want to assure you that your safety is our priority, and we are committed to correcting this condition in your vehicle.

Takata has reported that the passenger side front air bag inflator could potentially rupture in vehicles involved in an incident in which the frontal airbags deploy. This risk is due to propellant degradation which may occur after long-term exposure to high temperatures, high absolute humidity and high temperature cycling causing the inflator to rupture in deployment, which may result in serious injury or death to vehicle occupants.

Our records show that you are the owner of a vehicle affected by this recall.

IMPORTANT

The National Highway Traffic Safety Administration (NHTSA) and the impacted vehicle manufacturers, including Ferrari, are prioritizing Takata air bag repairs to ensure that vehicles with air bags that pose a higher risk to safety are fixed first while simultaneously working to ensure that parts are available to repair every affected vehicle as quickly as possible. Your vehicle has been identified as higher risk. Based on NHTSA’s criteria, your vehicle has been selected for this recall.

Ferrari will repair your vehicle free of charge. The repair involves replacing the Passenger Frontal Air Bag Module. The replacement part is not yet available, but is expected to become available in mid-August. Please contact your Ferrari dealer at that time and make an appointment to have this repair performed. The time needed for this repair is estimated to be between 2 and 5 hours depending on the model; however, your dealer may need to keep your vehicle for a longer period of time. Please be prepared to leave your vehicle with your dealer for at least a full day.

Please also note that only the passenger frontal airbag is affected by this recall. The driver’s frontal airbag is unaffected.

If you have any questions or concerns that your dealer is unable to resolve, please contact Ferrari North America, Inc. at 1(201) 816-2668. **Please help us update our records by filling out the attached prepaid postcard.**

We apologize for any inconvenience, but we are sincerely concerned about your safety. Thank you for your attention to this important matter.

Technical Department
Ferrari North America, Inc.

PLEASE NOTE: Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee by First Class Mail within ten business days.

IMPORTANT SAFETY RECALL – ADVANCE NOTICE

This notice applies to your vehicle (VIN: ZFF67NFA6B0180978).

RC 60 / NHTSA 16V-341

Dear Mark Goodman,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Ferrari has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2009-2011 Ferrari California and Model Year 2010-2011 458 Italia vehicles equipped with a Takata passenger-side front air bag manufactured and supplied by Takata Corporation based on the data currently available. We want to assure you that your safety is our priority, and we are committed to correcting this condition in your vehicle.

Takata has reported that the passenger side front air bag inflator could potentially rupture in vehicles involved in an incident in which the frontal airbags deploy. This risk is due to propellant degradation which may occur after long-term exposure to high temperatures, high absolute humidity and high temperature cycling, causing the inflator to rupture in deployment, which may result in serious injury or death to vehicle occupants.

Our records show that you are the owner of a vehicle affected by this recall. Parts are not yet available, but we expect them to be available in the near future. Ferrari will contact you again when a part is available for your vehicle.

IMPORTANT:

The National Highway Traffic Safety Administration (NHTSA) and the impacted vehicle manufacturers, including Ferrari, are prioritizing Takata air bag repairs to ensure that vehicles with air bags that pose a higher risk to safety are fixed first while simultaneously working to ensure that parts are available to repair every affected vehicle as quickly as possible. Based on testing, field experience, and research, older inflators in vehicles that have experienced prolonged exposure to hot and humid conditions pose a much greater risk of rupturing. Accordingly, NHTSA has ordered manufacturers to replace inflators in those older vehicles that are most likely to have been exposed to hot and humid conditions first. We ask for your understanding while the air bags that pose a higher risk to the vehicle passenger are replaced first. Ferrari will notify you by another letter when any necessary repair can be performed on your vehicle.

Please also note that only the passenger frontal airbag is affected by this recall. The driver’s frontal airbag is unaffected. If you have any questions or concerns that your dealer is unable to resolve, please contact Ferrari North America, Inc. at 1(201) 816-2668. **Please help us update our records by filling out the attached prepaid postcard.**

We apologize for any inconvenience, but we are sincerely concerned about your safety. Thank you for your attention to this important matter.

IMPORTANTE LLAMADA A REVISIÓN POR RIESGOS PARA LA SEGURIDAD

Este aviso afecta a su vehículo (VIN: ZFF67NFA4B0182423).

RC 60 / NHTSA 16V-341

Dear Jvd Advanced Imaging Psc:

Ha recibido el presente aviso de conformidad con la Ley Nacional de Seguridad de Tráfico y Vehículos Motorizados de EE.UU. (National Traffic and Motor Vehicle Safety Act).

Ferrari ha determinado que existe un defecto que afecta a la seguridad del automóvil en algunos modelos Ferrari California de los años 2009-2011 y 458 Italia de los años 2010-2011 equipados con un airbag frontal en el lado del acompañante fabricado y suministrado por Takata. Su seguridad es nuestra máxima prioridad y, en consecuencia, nos comprometemos a corregir esta situación en su vehículo.

Takata ha informado de que el inflador del airbag frontal del lado del acompañante podría llegar a romperse al desplegarse los airbags frontales como consecuencia de un accidente. Este riesgo se debe a la degradación de la carga propulsora tras la exposición prolongada a altas temperaturas, alta humedad absoluta y ciclos de altas temperaturas, provocando la ruptura del inflador al desplegar el airbag y pudiendo causar daños graves o incluso la muerte a los ocupantes del vehículo.

Nuestros registros nos indican que usted es propietario de uno de los vehículos afectados por esta llamada a revisión.

IMPORTANTE

La Administración Nacional estadounidense de Seguridad en el Tráfico de las Carreteras (NHTSA) y los fabricantes de vehículos afectados, entre los que se encuentra Ferrari, están concediendo prioridad a la reparación de los airbags de Takata con el objeto de garantizar que los vehículos equipados con airbags que supongan un alto riesgo para la seguridad sean reparados en primer lugar, trabajando al mismo tiempo para garantizar una disponibilidad de piezas que permita reparar todos los vehículos afectados lo antes posible. Se ha identificado su vehículo como vehículo de alto riesgo. Siguiendo los criterios de la NHTSA, se ha seleccionado su vehículo para esta llamada a revisión.

Ferrari reparará su vehículo de manera gratuita. La reparación implica la sustitución del módulo de airbag frontal del lado del acompañante. La pieza de sustitución aún no está disponible, pero está prevista su recepción a mediados de agosto. Le rogamos que se ponga en contacto en ese momento con su concesionario Ferrari y acuerde una cita para la realización de esta reparación. El tiempo estimado necesario para la reparación se sitúa entre 2 y 5 horas dependiendo del modelo; no obstante, puede suceder que su concesionario necesite disponer de su vehículo durante un periodo mayor de tiempo. Le rogamos que cuente con dejar su vehículo en su concesionario al menos un día entero.

Tenga en cuenta que solo el airbag frontal del acompañante está afectado por esta llamada a revisión. El airbag frontal del conductor no está afectado.

Si tiene alguna consulta o inquietud que su concesionario no sea capaz de resolver, póngase en contacto con Ferrari North America, Inc. en el teléfono 1(201) 816-2668. **Le agradecemos que nos ayude a actualizar nuestros registros rellenando la tarjeta postal adjunta con franqueo prepagado.**

Le pedimos disculpas por las molestias ocasionadas, pero nos mueve nuestra preocupación por su seguridad. Muchas gracias por atención prestada a este importante asunto.

Departamento Técnico
Ferrari North America, Inc.

TENGA EN CUENTA: La ley federal estadounidense establece que todo arrendador de vehículos que reciba esta llamada a revisión deberá reenviar una copia de este aviso al arrendatario por servicio de correos prioritario en un plazo de diez días laborables.

Subject: RE: Ferrari Recall 60 US

Hi Jeff,

Almost completed, paperwork being done on his end, will be put on the USPS truck at 5:45pm. He will send me a time stamp receipt to show that the entire job went out today.

Thanks. Rudy
