**Subaru Recall Campaign TKC-16
NHTSA Recall No. 16V-361
July 2016 – Zone C**

Dear Subaru Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

SUBARU OF AMERICA, INC. has decided that a defect, which relates to motor vehicle safety, exists in certain Subaru vehicles listed below, equipped with a non-desiccated Takata-sourced passenger side frontal air bag containing the propellant Phase Stabilized Ammonium Nitrate (certain specific vehicles only):

- 2003-2004 model year Baja
- 2003-2004 model year Legacy
- 2003-2004 model year Outback

You received this notice because our records indicate that you currently own one of these vehicles.

DESCRIPTION OF THE SAFETY DEFECT AND SAFETY HAZARD

The affected vehicles are equipped with a Takata-sourced passenger side frontal air bag that may be susceptible to moisture intrusion. Over time, that could cause the inflator to rupture when the passenger's frontal air bag deploys in a crash. If the inflator ruptures, metal fragments could strike vehicle occupants, potentially resulting in serious injury or death.

WHAT YOU SHOULD DO

Parts are not currently available. Subaru is in the process of acquiring parts necessary to perform this repair. Once there is a sufficient supply of parts available, Subaru will contact you again by mail advising you to proceed with scheduling an appointment with your Subaru retailer (dealer).

Until this repair is performed, do not allow passengers to ride in the front passenger seat.

WHAT WE WILL DO

Subaru will replace the inflator for your front passenger air bag at no cost to you. We will notify you when replacement parts are available.
