This notice applies to your vehicle, _____.

Date: December, 2016

Dear FIRSTNAME LASTNAME,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Reason for interim notice: Mitsubishi Motors North America, Inc. (MMNA) has decided that a defect which relates to motor vehicle safety exists in certain 2011 – 2015 Outlander Sport vehicles. Water can potentially drop down onto the front wiper motor through a gap between the front deck garnish (the body piece between the hood and windshield) and the front windshield. If this occurs, water could potentially collect in the area of the wiper motor breathing hole. If the wiper motor is not operating, this water can then potentially enter the wiper motor through the breathing hole. If this occurs, such water intrusion over time may cause internal corrosion and/or electrical conduction failure resulting in nonoperation of the windshield wiper motor.

If the windshield wiper motor stops operating, the driver will not be able to activate the windshield wipers, reducing driver visibility under certain conditions and increasing the risk of a vehicle crash.

MMNA intends to repair your vehicle free of charge (parts and labor). However, the parts required to provide a permanent remedy for this condition are currently not available. **MMNA is making every effort to obtain these parts as quickly as possible, and will contact you again by mail with a follow-up recall notice when the remedy parts are available.**

What you should do: Once you receive your follow-up notice in the mail advising that parts are available, simply contact your local Authorized Mitsubishi Motors dealer and schedule an appointment to have the repair performed. In the interim, if you believe your vehicle's windshield wiper motor has stopped operating, you may schedule an appointment with your local Authorized Mitsubishi Motors dealer to have it inspected.
