### **2004-2008 RX-8 - Fuel Leak at Fuel Pump Discharge Pipe Safety and Emission Recall 1017E NHTSA Campaign Nos. 16V-793 and 17V-354**

July 30, 2017

**This notice applies to your vehicle: VIN \_\_\_\_\_**

Dear Mazda Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

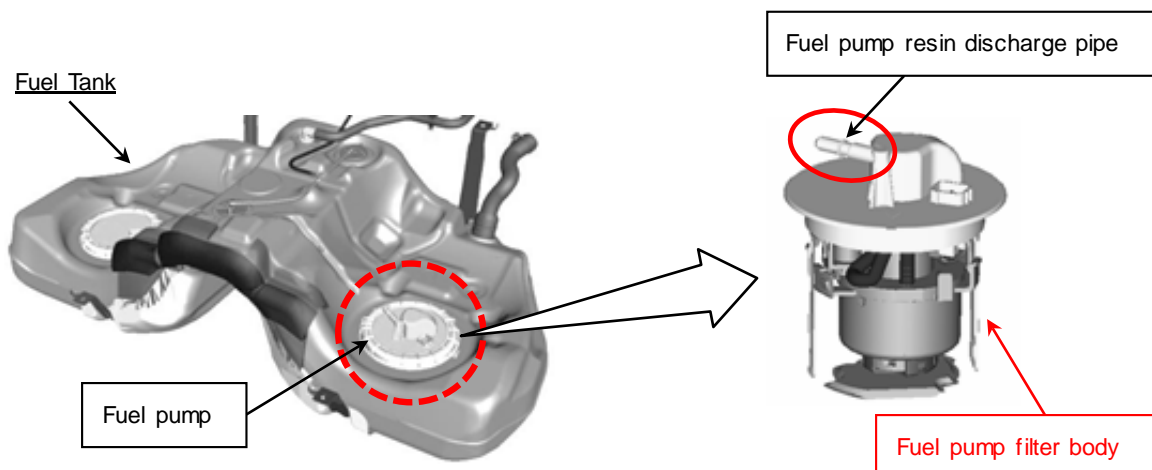

Mazda Motor Corporation has decided that a defect which relates to motor vehicle safety exists in certain 2004-2008 RX-8 vehicles produced from April 10, 2003 through February 18, 2008.

In December 2016 you received a notice regarding Safety and Emission Recall 0516J, 2004-2008 RX-8 Fuel Leak at Fuel Pump Rings. This recall 1017E is a new concern and replaces 0516J.

**If you are a recipient of this notice, your vehicle is included in this recall.**

#### **What is the problem?**

On certain subject RX-8 vehicles, due to insufficient durability of resin discharge pipe of fuel pump, the discharge pipe may deteriorate, affected by the pressure of fuel inside the pipe and by heat from the engine and exhaust pipe. If the vehicle continues to be used, the deterioration of discharge pipe may be progressed, leading to a crack in the pipe and subsequent fuel leak, which may increase a risk of fire.

### **What will Mazda do?**

Your Mazda dealer will replace the fuel pump filter body of your RX-8 vehicle with a modified one.

**The repair will be performed at no cost to you.**

The repair should take approximately one and a half hours to complete; however, your Mazda dealer may need your vehicle for a longer period of time. Please bring in your vehicle with no more than ¼ tank of fuel if possible.

Mazda will provide alternate transportation, if needed, while your vehicle is at an authorized Mazda dealership for a recall repair. Schedule an appointment with an authorized Mazda dealer so they can discuss and accommodate your needs.

### **What should you do?**

*Because Driving Matters, Safety Matters. Your Safety is Important to Mazda.*

Mazda is concerned about your safety, and we encourage you to contact any authorized Mazda dealer to schedule an appointment to have the fuel pump filter body of your vehicle replaced as soon as possible. You do not need to bring this notice to the dealer, but it may assist in the check-in process.

**Emission Law Information:** To ensure your full protection under the emission warranty made applicable to your vehicle by State or Federal Law, it is recommended you have your vehicle or engine serviced as soon as possible. Failure to do so could be determined as lack of proper maintenance of your vehicle. Also, your vehicle may fail a state or local emission inspection if this recall is not completed.

**Important notice to owners registering vehicles in California and Massachusetts:** California Department of Motor Vehicles and the Commonwealth of Massachusetts, in conjunction with the California Air Resources Board and the Environmental Protection Agency for the State of Massachusetts, have implemented the Registration Renewal/Recall Tie-In Program, which requires the completion of Emission Recalls prior to registration renewal. Mazda dealers will provide a Vehicle Emission Recall - Proof of Correction Certificate upon completion of the recall. Be sure to keep the proof of correction certificate provided by the Mazda Dealer until needed for the registration renewal process.

**What if you already paid for repair or replacement of fuel pump filter body?**
