In the 4<sup>th</sup> Quarter of 2016, Honda notified owners affected by recall 16V-056 that parts were available to perform the repair. Since the population for 16V-056 wholly encompasses 15V-665 and the repair for 16V-056 (SRS ECU replacement) also remedies the defect for 15V-665 (inadvertent side curtain airbag deployment), recall 16V-056 will supersede 15V-665 in its entirety.
