To: All BMW Parts and Service Managers

RE: Ordering Procedures for Recall 16V-071 Driver's Front Air Bag Module

We would like to provide clarification on the ordering process for the inflators and air bag assemblies.

Per bulletin SIB 65 14 16:

- BMW NA is pushing inflators to your locations, we will continue to manually push orders to support the repair of dealer inventory and customers in rental or loaner vehicles.

- At this time orders should not be sent for inflator part number 32 30 6 884 812. All email requests for the inflator, sent to recallparts@bmwna.com, have been deleted.

If you cannot repair those vehicles for which an inflator has been sent, as outlined in the SIB (**In the following cases the inflator/gas generator replacement should not be done and instead the complete Air Bag assembly must be replaced**), please request the airbag for a specific VIN only and not for stock. Please use SIB 651416 as the subject line of the email. **One VIN request per email.** Please email your request to recallparts@bmwna.com include your Dealer (ship to location) code, VIN (last 7 digits), part number and your contact information including the address for delivery. Orders will be entered using the VIN and AB(air bag) for the PO **if parts are available.** Example LM12345AB

We will notify you via DCS later in the week when you can start sending orders for the inflators. Please take note, as customer mailings occur those VINS will be added to the defect code 0032350200. (Reference SIB 65 14 16)

The final customer letter will be mailed in phases beginning the week of May 23, 2016.

Thank you,
Parts Logistics
