

**2016 MY Optima Driver's Frontal Airbag Recall re
Basis of Safety Defect Determination 573.6(c)(6)**

April 4, 2016	Key Safety Systems (KSS), the driver's frontal airbag module supplier, notifies Hyundai Mobis (driver's frontal airbag assembly supplier) and Kia Motors Corporation (KMC) that the secondary chemical enhancer required for a second stage airbag deployment was missing in some inflators and advises it has compiled complete serial number list of potentially affected inflators.
April 5-8, 2016	KMC contacts Hyundai Mobis. KMC checks its manufacturing records for potentially affected driver airbag modules provided by KSS.
April 14, 2016	Hyundai Mobis provides serial numbers of potentially affected driver airbag module assembly to KMC. KMC confirms number of vehicles in the U.S. with potentially affected driver airbag module assembly is 17.
April 15, 2016	KMC makes decision to conduct a voluntary safety recall. No accidents or injuries.
