DCSnet Message
Urgent

Subject: **Update 5/27: Recall Campaign 16V-XXX: ISOFIX Child Restraint System Anchors**

To: General Managers, Sales Managers, Service and Parts Managers, Shop Foremen and Service Technicians

Subject: Update: Recall Campaign 16V-XXX: ISOFIX Child Restraint System Anchors

Bulletin: SI B41 01 16

Vehicles affected: F25 (X3), F26 (X4)

As a follow-up to the DCS Recall Campaign Message released on May 24, here is the latest information as of Friday May 27.

- **Parts information:** Please continue to monitor DCS messages published by the Parts Logistics group for the latest details.
- **Repair Information:** We have received many inquiries and there are 3 repair scenarios that can be done in order to repair the vehicles. Please use the process which best suits your dealer:
 1. Body Shop /CCRC completes the entire repair
 2. BMW workshop completes the entire repair (technician has the ability to weld)
 3. BMW workshop removes the seats and trim and Body Shop, CCRC or mobile welder completes the repair

The repair procedure video is now available for viewing on the TIS website under - [Reference Information / Videos / Group 41 Body / Recall Campaign 16V-XXX: ISOFIX Child Restraint System Anchors](#).

- **Warranty information:** Since there are 3 different repair scenarios, there will be 3 different warranty claiming scenarios. We are currently working with BMW AG on the results of time studies and dealer feedback to come up with a fair and reasonable reimbursement. The SI B41 01 16 will be updated with this information next week.
