

CORRECTED LABELS ARE ENCLOSED WITH THE NOTIFICATION LETTER

CHANGING THE FEDERAL CERTIFICATION LABEL AND TIRE LABEL

Remove existing label(s)

1. Locate the appropriate label(s) on the outside off door side (road side) front of the unit. Remove the existing Federal Certification Label and Tire Label
2. Using isopropyl alcohol and a shop rag, remove any adhesive residue from the surface where the original label had been. Allow the area to dry for at least 30 seconds.

Apply new label(s)

3. Remove the protective back from the new labels. Align the new label in the same location of the original label and apply it to the surface. Remove any air bubbles from the label.

NOTE: Do not attempt to remove or adjust the label once it has come into contact with the surface. Doing so may damage the label or cause it not to adhere properly to the surface. IF A LABEL IS DAMAGED OR WILL NOT PROPERLY ADHERE TO THE SURFACE, A NEW LABEL MUST BE ORDERED.

Federal Certification Label

Instructions for Canadian Data Sheet - CSA Built Units

1. Locate the existing **Canadian Data Sheet** label on the inside of the cabinet door under the kitchen sink. Using a DRY rag, wipe off the surface of the existing label to remove any dust or dirt from the surface. Do not use any wet cleaner on the existing label as it may absorb the liquid adversely affecting the adhesive on the new label. **DO NOT** attempt to remove the existing label.
2. Remove the protective back from the new Canadian Data Sheet label. Align the label with the existing label and apply it over the top of the original label.
NOTE: Do not attempt to remove or adjust the label once it has come into contact with the surface. Doing so may damage the label or cause it not to adhere properly to the surface. IF A LABEL IS DAMAGED OR WILL NOT PROPERLY ADHERE TO THE SURFACE, A NEW LABEL MUST BE ORDERED.

DO NOT REMOVE THIS LABEL
