To: All BMW Parts and Service Managers

Re: Parts Matrix (Revised)

Dear Parts and Service Managers,

Attached is the weekly Parts Matrix which includes the Highest Priority parts situation along with the ordering process.

As a reminder, the Parts Matrix is updated weekly. It is important to monitor our daily DCS messages as things may change during the week.

Please do not perform any repairs without reading the SIB in its entirety.

Changes to this week's Parts Matrix are as follows:

1. **Drive Air Bag 16V-683 (SIB 65 22 16) – Parts will be shipped based on the CR calls. Please review the DCS dated 10/11/16.**
2. **Please use IDS Tickets where noted on the Matrix**

Air Bag Ordering:

Driver Air Bag 15V-318 (SIB 65 11 15) - Parts are in Fair Share Allocation (FSA).

Please remember to check the weekly allotment to help schedule your appointments. The quantities might change from week to week.

We continue to see Dealers place the full allotment on a VOR and even some on Late Day VOR. As a reminder – these parts are reserved for you, you can order all or none, but you should be take advantage of stock ordering.

We are looking at offering another pallet shipment in the future.

Driver Air Bag 16V-071

As you know things have changed. Please read and share the new process outlined in SIB 08 03 16.

The old process is that you would check the VIN to see if the Defect Code was correct and then order as needed.

The new process is that you check Vehicle Comments to see if the remedy is available and then order as needed.

This Recall affects over 800,000 vehicles. Parts are in LIMITED supply at the moment.

Our parts allocation follows the NHSTA requirements to prioritize parts for vehicles in the High Absolute Humidity (HAH) states and for oldest model years first. Letters will be mailed to customers, matching the parts availability.

The new part numbers listed on EPC for accident cars and regular service repairs are active for ordering.

The Interim parts on your shelf listed in the current SIB's were the older parts from EPC.

All 16V-071 SIB's are being updated with the new part numbers and will be published shortly.

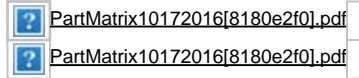

M Sub-Frame Bolts 16V-653 (SIB 33 05 16) - VIN specific ordering (**196 vehicles**) - Only the six required parts are blocked from ordering. The optional (if needed) part numbers are open for ordering.

Passenger Air Bag 16V-364 (SIB 65 19 16) – 72 12 9 141 529 is the same part number listed on EPC – the nuts are also required.

Please continue to monitor our DCS messages and the weekly Matrix (attached) for parts ordering updates.

Thank you,
Parts Logistics
