Subject: **UPDATE RECALL: 2013-2016 G650 GS/ GS Sertao for stalling issue. Fix released**

UPDATE RECALL: 2013-2016 G650 GS/ GS Sertao for stalling issue fix now available

On September 27th, 2016 BMW Motorrad announced a safety recall involving G 650 GS models produced between 03/2013 and 10/2015 and G 650 GS Sertao models produced between 03/2014 and 05/2015.

Under the National Traffic and Motor Vehicle Safety Act of 1966, as amended, if a recall campaign is announced by BMW NA, dealers must ensure that all recalls on vehicles are completed BEFORE delivery to the consumer. **This means that dealers may not legally deliver new vehicles to consumers with an open recall.** The Safety Act also prohibits dealers from selling or leasing the vehicle until the open recall has been completed BEFORE delivery. This also pertains to used motorcycles.

Updated software is now available for download to your ISPI Next System (ISTA/P Version 3.60.3 or higher). The service bulletin (**13 003 16**) has been attached to this message and will also be available in AIR in 24hrs. The repair includes several physical checks as well as reprogramming.
