Subject: **UPDATE RECALL: 2013-2016 G650 GS/ GS Sertao for stalling issue.**

UPDATE RECALL: 2013-2016 G650 GS/ GS Sertao for stalling issue.

On September 27th, 2016 BMW Motorrad announced a safety recall involving G 650 GS models produced between 03/2013 and 10/2015 and G 650 GS Sertao models produced between 03/2014 and 05/2015.

Under the National Traffic and Motor Vehicle Safety Act of 1966, as amended, if a recall campaign is announced by BMW NA, dealers must ensure that all recalls on vehicles are completed BEFORE delivery to the consumer. **This means that dealers may not legally deliver new vehicles to consumers with an open recall.** The Safety Act also prohibits dealers from selling or leasing the vehicle until the open recall has been completed BEFORE delivery. This also pertains to used motorcycles.

Updated software for the effected models is provisionally scheduled for December 16th. Once the software is available we will confirm via a DCS message followed by a Service Bulletin. The software must be downloaded and installed to your ISPI Next server with the latest ISTA/P update.
