Potential Number of Units Affected: 9

Problem Description:

Jaguar Land Rover North America, LLC (Jaguar) is recalling certain 2017 XF vehicles. The affected vehicles may have a cracked left hand inner sill panel. In the event of a crash involving a left hand impact, the cracked sill panel may result in the underfloor fuel lines rupturing and leaking fuel.

Jaguar will notify owners, and dealers will inspect the vehicle's left inner sill panel. If cracks are found, Jaguar will repurchase the vehicle and supply the customer with a new vehicle, free of charge. The recall is expected to begin April 7, 2017. Owners may contact Jaguar customer service at 1-800-452-4827. Jaguar's number for this recall is K458.

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect.
