Subject: Incorrect Coating on Battery Positive Cables

Dear Ms. Riehle:

This letter serves to acknowledge BMW of North America, LLC's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

BMW/X1 SAV/2014

Mfr's Report Date: February 9, 2017

NHTSA Campaign Number: 17V-087

Components:

ELECTRICAL SYSTEM:BATTERY:CABLES

Potential Number of Units Affected: 1,160

Problem Description:

BMW of North America, LLC (BMW) is recalling certain 2014 X1 sDrive28i, X1 xDrive28i and X1 xDrive35i vehicles. The affected vehicles may have battery positive (B+) cables that develop high resistance in the connections to the fuse box.

Consequence:

The high resistance may result in loss of the cable's electrical connection, possibly causing an engine stall and preventing the vehicle from restarting, increasing the risk of a crash.

Remedy:

BMW will notify owners, and dealers will replace the B+ cable connector with one that is silver coated and better secure it to the fuse box, free of charge. The recall is expected to begin April 3, 2017. Owners may contact BMW customer service at 1-800-525-7417.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Tariq Bond who may be reached by phone at 1-202-366-5472, or by email at tariq.bond@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer Timian".
