Subject: Service Brake Air Leak can Reduce Braking Ability

Dear Mr. Mitchell:

This letter serves to acknowledge Great Dane Trailers's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

GREAT DANE/EVEREST SS/2018

Mfr's Report Date: March 27, 2017

NHTSA Campaign Number: 17V-211

Components:

SERVICE BRAKES, AIR

Potential Number of Units Affected: TBD

Problem Description:

Great Dane Trailers (Great Dane) is recalling certain 2018 Everest SS refrigerated trailers. A plug for the front brake chamber service port may not have been properly tightened, possibly reducing the service brake pressure.

Consequence:

A reduction of service brake pressure can lengthen the distance needed to stop the vehicle, increasing the risk of a crash.

Remedy:

The remedy for this recall is still under development. The manufacturer has not yet provided a notification schedule. Owners may contact Great Dane customer service at 1-912-232-4471.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please provide the population of the affected trailers once it has been determined.

Please provide Great Dane's remedy plan for this defect once it has been determined.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As required in Part 573.6(c)(6), in the case of a defect, please provide a chronology of all principal events that were the basis for the determination that the defect related to motor vehicle safety, including a summary of all warranty claims, field or service reports, and other information, with their dates of receipt. Please provide this information as soon as possible.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Michelle Rice who may be reached by phone at 202-366-1060, or by email at michelle.rice@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jennifer Timian', with a date '1/10/10' written at the end.
