Chronology :

June 26, 2017- A dealer contact KZ by phone to advise he had units on his lot with improper size spare tires. Notifications were distributed to production, purchasing and service. A hold was placed on all 291BHLE units in stock at the factory and transport yards.

June 27th, 2017- Problem was verified when yard inventory was checked and improper size spare tires were present. Production records were published and corrections were made to all quarantined units (18). A meeting of the safety committee was held and the determination to issue a recall resulted.

Description of Remedy :

Description of Remedy Program : KZ will supply the proper ST22575R15LRD tires to replace the improper size spare tires supplied with the affected trailers.

How Remedy Component Differs from Recalled Component : Tire size and rating marked on the sidewall of the tire.

Identify How/When Recall Condition was Corrected in Production : An addition was made to the production order to indicate specific tire size/rating for the spare tire. QC will also verify spare tire size/rating during final inspection.

Recall Schedule :

Description of Recall Schedule : KZ RV will notify the dealers and owners of the recreational vehicles by letter. A final copy of the owner letter will be provided to NHTSA, along with the dealer repair procedures.
