Description of the Cause : NR

Identification of Any Warning NR
that can Occur :

Supplier Identification :

Component Manufacturer

Name : Stazworks, LLC
Address : w8827 Chicadee Road
Merrillan WISCONSIN 54754
Country : United States

Chronology :

CSI received a complaint from a customer (May 23, 2017) that one of the wheels had failure and the wheel malfunctioned where it connected to the bolts. We inquired with the customer, took pictures and sent them to the manufacturer. In June, we decided to just replace the wheels that were currently on the road, since there were only approximately fifteen.

Description of Remedy :

Description of Remedy Program : CSI has notified all customers that purchased wheels from that supplier that they should no longer operate the vehicles until the wheels have been replaced. CSI has replaces all of the potentially defective wheels with new wheels.

How Remedy Component Differs from Recalled Component : CSI had the supplier manufacture new wheels with thicker structural rigidity and a new bold pattern that withstands greater pressure.

Identify How/When Recall Condition was Corrected in Production : NR

Recall Schedule :

Description of Recall Schedule : The recall started by notifying the effected customers around June 16, 2017 that we would be replacing all of the potentially effected wheels.. We had replaced all of the potentially effected wheels by July 31, 2017
