Description of Noncompliance :

Description of the Noncompliance : The Federal Placards for affected vehicles indicate that the vehicles have the Gross Vehicle Weight Rating (GVWR) have wrong calculation as follows:

- On 2-6K axles bumper pull units
GVWR placard indicates 12,000 LBS whereas the GVWR should indicate 13,018 LBS
- On 2-6k axles goosenecks
GVWR placard indicates 12,000 LBS whereas the GVWR should indicate 14,150 LBS
- On 2-7k axles bumper pull units
GVWR placard indicates 14,000 LBS whereas the GVWR should indicate 16,100 LBS
- On 2-7k axles goosenecks
GVWR placard indicates 14,000 LBS whereas the GVWR should indicate 17,500 LBS

FMVSS 1 : 567 - Certification

FMVSS 2 : NR

Description of the Safety Risk : The Gross Vehicle Weight Ratings listed on the Federal Placards do not accurately reflect the vehicles' actual weight ratings and capacities as manufactured. Because the GVWRs listed on the Placards are less than the actual GVWRs of the vehicles and because the Gross Axle Weight Ratings are accurately stated on the Placards and they equal or exceed the actual GVWRs of the vehicles, there are no known safety risks associated with this defect.

Chronology :

The Chronology of events leading up to the defect decision or test data for noncompliance decision: Counsel for Tiny Idahomes LLC/Rugged Mountain Custom RV in pending litigation brought to our attention that the Federal Placard on one of Tiny Idahomes' custom vehicles may not have accurately listed its GVWR on its label. Upon investigation, we confirmed that the GVWR stated on the Federal Placard on that vehicle and on others produced and sold over the past three years had underrated the actual GVWR of that and the other vehicles. Upon consultation with outside counsel familiar with NHTSA recall requirements, we were advised last week to file a 573 report and initiate a recall campaign and remedy.

Description of Remedy :

Description of Remedy Program : Tiny Idahomes LLC/Rugged Mountain Custom RV will provide new Federal Placards containing accurate Gross Vehicle Weight Ratings and carrying capacity information, free of charge to the Owners with instructions on how to correctly remove and replace the existing Federal Placard with the new Placard containing the correct information. The repair is simple and can be accomplished quickly and easily by the Owner. Tiny Idahomes' Service Telephone Number is 208.468.0567

How Remedy Component Differs from Recalled Component : The remedy placard will have the correct GVWR printed on it.

Identify How/When Recall Condition was Corrected in Production : The condition was corrected through a data entry revision during the week of July 31, 2017.

Recall Schedule :

Description of Recall Schedule : Tiny Idahomes LLC intends to send out the letters of notification to all affected Owners along with the corrected Federal Placards as soon as NHTSA provides any corrections and its Acknowledgement Letter.
