Description of the Safety Risk : A fuel leak in the presence of an ignition source may increase the risk of a fire.

Description of the Cause : NR

Identification of Any Warning that can Occur : NR

**Supplier Identification :****Component Manufacturer**

Name : NR

Address : NR

Country : NR

## Chronology :

July 2017 DTNA began investigating potential clearance issues between the fuel line and transmission yoke and inspected vehicles in the field. In October 2017, out of an abundance of caution, DTNA decided to conduct a voluntary recall on certain Thomas Built Buses Saf-T-Liner C2 school buses.

## Description of Remedy :

Description of Remedy Program : The routing of the propane fuel plumbing will be inspected and revised if required. Repairs will be performed by Daimler Trucks North America authorized service facilities. Copies of the reimbursement plan will be submitted as a supplemental report when available.

How Remedy Component Differs from Recalled Component : NR

Identify How/When Recall Condition was Corrected in Production : NR
