

Part 573 Safety Recall Report

17V-736

Manufacturer Name : Winnebago Industries, Inc

Submission Date : NOV 20, 2017

NHTSA Recall No. : 17V-736

Manufacturer Recall No. : NR

Manufacturer Information :

Manufacturer Name : Winnebago Industries, Inc

Address : PO BOX 152
605 W. Crystal Lake Rd. Forest City IA
50436

Company phone : 1-641-585-3535

Population :

Number of potentially involved : 58

Estimated percentage with defect : 100 %

Vehicle Information :

Vehicle 1 : 2017-2018 Winnebago Grand Tour & Journey

Vehicle Type :

Body Style :

Power Train : NR

Descriptive Information : All models built after model year 2016

These models were built in the Junction City, Oregon production facility. All other models were built in the Forest City, Iowa production facility.

Production Dates : AUG 31, 2016 - NOV 07, 2017

VIN Range 1 : Begin :

NR

End : NR

Not sequential

Description of the Safety Risk : Potential for an electrical short and, or hydraulic leak may create a potential for fire causing destruction of property, serious injury, or death.

Description of the Cause : NR

Identification of Any Warning that can Occur : NR

Supplier Identification :

Component Manufacturer

Name : NR
Address : NR
NR
Country : NR

Chronology :

Winnebago was notified on November 6, 2017 by a dealer that at delivery check in, the battery cable and hydraulic line were damaged due to contact with the drive shaft. On November 7, 2017 in house units were inspected and additional units were found to have the same defect. On November 7, 2017 Rework Campaign 636 was issued and all units in house were placed on hold and began research on the population of affected units. On November 17, 2017 a meeting of the Safety Committee was held and the determination was made to conduct a Recall Campaign.

Description of Remedy :

Description of Remedy Program : Dealer will visually inspect all battery cables and hydraulic lines to ensure they are properly secured, and free from damage. If found to be not properly secured, they will route and secure all battery cables and hydraulic lines, and replace any found to be damaged. Winnebago authorized service center will submit a Warranty Service Claim to Winnebago.

How Remedy Component Differs from Recalled Component : NR

Identify How/When Recall Condition was Corrected in Production : Production area initiated an inspection process to ensure all cables and hydraulic lines are secure on all production units.

Recall Schedule :

Description of Recall Schedule : NR
Planned Dealer Notification Date : NR - NR
Planned Owner Notification Date : NR - NR
