

Mitsubishi Motors North America, Inc. PARTS BULLETIN

SUBJECT:

**i-MiEV PASSENGER SIDE FRONTAL AIR
BAG INFLATOR – SAFETY RECALL
CAMPAIGN**

No: 52-IM-01-17

Date: March 7, 2017

Model: 2012, 2014 i-MiEV

PURPOSE:

This bulletin provides parts background detail for the passenger side frontal air bag inflator safety recall on affected vehicles.

Based upon a Defect Information Report submitted to the National Highway Traffic Safety Administration by TK Holdings (Takata), MMNA is recalling certain 2012 and 2014 i-MiEV vehicles. Affected vehicles are equipped with a specific type of passenger side frontal air bag inflator provided by Takata that could be susceptible to rupture, due to excessive internal pressure, during a normal air bag deployment event. This condition is more likely to occur if the vehicle has been exposed to high levels of absolute humidity for an extended period of time.

Please reference SAFETY RECALL CAMPAIGN BULLETIN **SR-17-001** for repair instructions. The recall campaign ID is **C1701E**.

AFFECTED VEHICLES:

2012, 2014 i-MiEV

IMPORTANT

Affected new or used inventory vehicles must be repaired before the vehicle is delivered. Dealers must check their inventory vehicles' VINs on the Warranty Superscreen to verify whether the vehicle is involved in this recall campaign. It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by the notification under a sale or lease until the defect or noncompliance is remedied.
