

## IMPORTANT SAFETY RECALL INFORMATION

**March, 2017**

**Dear Maserati Dealer:**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act (in the US) and the Motor Vehicle Safety Act (in Canada).

Maserati S.p.A. and MNA have determined that a defect that relates to motor vehicle safety exists in model year 2014, 2015, 2016 and 2017 Maserati Quattroporte, Ghibli and Levante vehicles.

Maserati S.p.A. has determined that the above described vehicles may have been manufactured with an incorrect seat wiring harness layout, which can cause the seat wiring harness to rub against metal points on the seat/seat frame assembly. Through normal seat adjustment operation, and over time, this can lead to an inoperative seat adjustment system, and in rare cases, a potential risk of fire due to an electrical between the seat wiring harness and the seat adjustment motor assembly.

Maserati is currently in the process of obtaining the necessary components for the recall remedy, which should be available by the 2<sup>nd</sup> or 3<sup>rd</sup> quarter of 2017. Once the remedy is available, Maserati will contact you by mail, with a recall notice advising you to contact your dealer to schedule the recall repair.

## IMPORTANT SAFETY RECALL INFORMATION

Maserati dealers must ensure recalls are completed after having been notified by Maserati North America, Inc. (MNA) that a safety-related defect or noncompliance exists in any motor vehicle or item of replacement equipment in the dealer's possession at the time of notification. In MNA's case, this notification would typically be made by the issuance of a recall notification in the form of a Technical Bulletin.

Under the National Traffic and Motor Vehicle Safety Act of 1966, as amended (or in the case of Canadian vehicles, Motor Vehicle Safety Act S.C. 1993, as amended), if a recall campaign is announced by MNA, **dealers must ensure that all recalls on new vehicles and new items of replacement equipment are completed BEFORE delivery to the consumer. This means that dealers may not legally deliver new motor vehicles or new items of replacement equipment to consumers with an open recall.**

The **Safety Act** also prohibits dealers from selling or leasing the motor vehicle or item of replacement equipment, unless and until the open recall has been completed BEFORE delivery. This also pertains to vehicles in the Certified Pre-Owned program, and to items of replacement equipment.

Finally, MNA dealers **should not sell or use parts that have been recalled by MNA.** Please follow the specific instructions provided by MNA on the return or disposition of the parts.

**Obviously, if you have any of the affected vehicles in your stock, you must not sell them until you have performed the necessary repairs on the vehicle.** If you have already sold any of the vehicles with the indicated VIN in the enclosed instructions and have not yet sent in the new owner information to MNA, please do so at once so we may notify these owners.

Thank you for your cooperation.

Sincerely,

Daniel Doku  
Manager, Certification & Compliance Department
