February 2017

IMPORTANT SAFETY RECALL
NHTSA Recall Campaign # 17V-056

Dear Valued Dealer:

This notice is sent to you in accordance of the National Traffic and Motor Vehicle Safety Act.

Jayco has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2017 Eagle 360QBOK fifth wheels manufactured with the dry camp option. The affected fifth wheels were manufactured September 9, 2016 through October 12, 2016.

The LP manifold was mounted to the frame directly above the axle assembly and U-bolts. Impact from the axle may damage / crack the manifold and break free the LP lines and fittings. Damage caused by the axle may not be readily noticeable and could cause ignition of the LP gas, which could result w personal injury and/or property damage when the LP system is tested, filled and/or used.

The Recall remedy is to replace and relocate the LP manifold and hoses. Our records show the following unit is affected by this recall and is currently part of the inventory at your dealership. The Recall Remedy must be performed on this unit *prior* to being sold:

Serial Number Listing

Dealer Campaign Responsibility

Federal law requires that all units in your inventory be repaired prior to delivery to a customer. If you have sold a unit recently that you have received a stock recall notice on, please contact the owner immediately to advise of the recall. In addition, please register the unit by submitting the Warranty Registration information to Jayco.

If you have any questions, please contact Jayco Customer Service 800-283-8267 for further instructions.

We apologize for any inconvenience this may cause. However, we have taken this action in the interest of our customer's safety and continued satisfaction with their Jayco fifth wheel.

Sincerely,
Jayco
