Subject: Recall R89714
TO: All U.S. and Canadian Volvo Retailers

VEHICLES in RETAILER INVENTORY

It is a violation of federal law for a retailer to deliver any new Volvo that is eligible for a recall. Retailers are advised to check all vehicle inventory for recall eligibility and repair immediately. Once the repair is complete, the vehicle may be delivered.

Due to a manufacturing error in the surface treatment process, the bolts that were used to assemble the inflatable curtain (IC) airbag may not meet specifications. This could result in one or more of the bolts breaking within 48 hours of installation, which in the event of a crash warranting deployment of the IC airbag, could increase the risk of injury to vehicle occupants.

The correction action is for Volvo retailers to inspect and if necessary replace the affected bolts.

A total of 10,476 U.S. and 1,209 Canadian vehicles are eligible for this recall.

Vehicle eligibility must be confirmed:

- Vehicle Inquiry – Vehicle Warranty where the message "Recall R89714 Inflatable Curtain Bolts" will appear for eligible vehicles.
- All cars not yet delivered to end customers must be corrected prior to delivery.
- There have been no reports of incidents related to this issue.
