Subject: Advance Notice Safety Recall 69O8 – Autoliv Rear Seat Safety Belt Pretensioners
Certain 2017 MY Audi A5 Cabriolet and S5 Cabriolet

Audi has notified NHTSA and Transport Canada about the upcoming safety recall described in this letter.

CODE	69O8
AFFECTED VEHICLES	Certain 2017 MY Audi A5 Cabriolet and S5 Cabriolet
RECALL DESCRIPTION	Affected vehicles have safety belt pretensioners manufactured by Autoliv. Due to a manufacturing defect, the micro-gas generator within the pretensioner could detach during a crash with high load/safety belt pretensioner deployment. If this happens, the micro-gas generator could enter the passenger compartment, possibly striking and injuring vehicle occupants (even though the safety belts will perform as designed).
CORRECTIVE ACTION	Repair information will be provided to dealers when parts and repair instructions become available to support this recall. Affected safety belt retractors/pretensioners will be replaced.

IMPORTANT REMINDER ON VEHICLES AFFECTED BY SAFETY & COMPLIANCE RECALLS

New Vehicles in Dealer Inventory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied. By law, dealers must correct, prior to delivery for sale or lease, any vehicle that fails to comply with an applicable Federal Motor Vehicle Safety Standard or that contains a defect relating to motor vehicle safety.

Pre-Owned Vehicles in Dealer Inventory: Dealers should not deliver any pre-owned vehicles in their inventory which are involved in a safety or compliance recall until the defect has been remedied.

If you have any questions or require additional assistance, please contact Warranty. As always, any press inquiries should be directed to Audi Public Relations.
