#### \*\*\*\*\* Campaign Summary \*\*\*\*\*

Nissan is conducting a voluntary safety recall campaign to install a new passenger air bag module on specific MY2017 Nissan Versa Note (E12) and Versa Sedan (N17) vehicles. Due to a supplier manufacturing error, which has since been corrected, certain front passenger air bags may have been manufactured outside of Nissan specifications. In rare cases, this may lead to improper air bag deployment in the event of a crash, which can increase the risk of injury to the front seat occupant.

**Note: This recall is not related to the Takata Air Bag Inflator Recall.**

#### \*\*\*\*\* What Dealers Should Do\*\*\*\*\*

1. Verify if vehicles are affected by this Voluntary Safety Recall Campaign using Service Comm I.D. **PM679**.
  - **New vehicles in dealer inventory can be also be identified using DBS (Sales-> Vehicle Inventory, and filter by Open Campaign).**
    - Refer to NPSB 15-460 for additional information

3. Dealers should use **NTB17-044** to replace the front passenger air bag module in any vehicles subject to this campaign.
  - If a retailed vehicle affected by these campaign ID visits the dealer for service, the dealer should inform the customer about the recall campaign and communicate that parts may need to be ordered. After the customer is informed, retail customers can continue to drive their vehicle at their discretion. Rental will be available under the campaign while parts are on order.
