Subject: Advance Notice Compliance Recall 45G6 – Brake Lights Don't Activate During Emergency Brake Application  
Certain 2016-2017 MY Audi Q3

Audi has notified NHTSA and Transport Canada about the upcoming compliance recall described in this letter.

<b>CODE</b>	45G6 On or about July 07, 2017 affected vehicles will be identified in ELSA and VIN lookup with the status <b>REPAIR NOT YET AVAILABLE.</b>
<b>AFFECTED VEHICLES</b>	Certain 2016-2017 MY Audi Q3
<b>RECALL DESCRIPTION</b>	If the parking brake is used during emergency braking, the brake lights on the vehicle will not activate. Following road users would be unaware of the emergency braking that is taking place, which could increase the risk of a rear-end crash causing injury and/or damage to property. This makes the vehicle non-compliant with regulatory requirements.
<b>CORRECTIVE ACTION</b>	Repair information will be provided to dealers when parts and repair instructions become available to support this recall. Dealers will update vehicle software to correct the non-compliance.

**IMPORTANT REMINDER ON VEHICLES AFFECTED BY SAFETY & COMPLIANCE RECALLS**

**New Vehicles in Dealer Inventory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied. By law, dealers must correct, prior to delivery for sale or lease, any vehicle that fails to comply with an applicable Federal Motor Vehicle Safety Standard or that contains a defect relating to motor vehicle safety.**

**Pre-Owned Vehicles in Dealer Inventory: Dealers should not deliver any pre-owned vehicles in their inventory which are involved in a safety or compliance recall until the defect has been remedied.**

If you have any questions or require additional assistance, please contact Warranty. As always, any press inquiries should be directed to Audi Public Relations.
