**Subject:** Takata Recall completion rates - need help!

Attention all service managers

Our district is only at 48% completion rate for the Takata Air Bag recalls (**R25, R26, R37, R49, S14, S43**)  
The BC is well ahead of us at a 58% completion rate.

Please pull all galley lists and contact as many customers as you can.. the lists have been refreshed with local customers.

Does your dealer web site have a Recall Checker on it (how about your social media accounts.. Facebook, Twitter, etc)

Here is the district breakdown...

	Sum of Total Vehicles in Galley List (R25, R26, R37, R49, S14, S43)	Sum of Total Repaired in Galley List	Sum of %Completed (Excluding Scrap, Stolen, Export, Other)
