

IMPORTANT SAFETY RECALL

Dear Dealer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act and The Canadian Motor Vehicle Safety Act and is important for your safety.

Thor Motor Coach (TMC) decided that a safety defect which relates to motor vehicle safety exists in certain Tuscany models of motor homes.

It has been decided that on certain 2018 Chateau, Four Winds, and Freedom Elite motorhomes, the rubber LP hose may have been incorrectly secured by TMC which could cause the hose to sag and become pinched between the frame and the leaf spring u-bolts. This could result in a potential leak in the LP hose, which could cause a fire leading to serious injury or death.

The required action is to inspect the routing of the rubber LP hose in the wheel well and either install additional p-clams or relocate p-clamps for proper securement to eliminate potential for sagging.

Dealers that have stock units impacted by this recall can access the full list of affected VINs sold to their dealership by accessing the "Service Campaign" portion of the TMC Advantage Web Portal. If any unit on this list has been retail sold you are asked to notify the retail owner as soon as possible of this recall because their vehicle was not registered at the time the retail notice was mailed. Please immediately register any retail sold units on this list. **As a reminder, you are required by law to complete this recall on any stock units in inventory prior to retail sale.
