**IMPORTANT SAFETY RECALL**  
NHTSA RECALL CAMPAIGN # 17V-561

---

Dear Valued Dealer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Highland Ridge RV (Highland) has decided that certain Model Year 2018 Open Range, 3X fifth wheels fail to conform to the requirements of Federal Motor Vehicle Safety Standard No. 110, "Tire selection and rims and motor home/recreation vehicle trailer load carrying capacity information for motor vehicles with a GVWR of 4,536 kilograms (10,000 pounds) or less". Specifically, "the tires on the trailer must be the same size as the tire size on the labeling required."

The optional / standard tire information downloaded into the production system incorrectly stated the tires as 235/80R16 on the Tire Label and Federal Label, when the **correct tires installed on the fifth wheel are 235/85R16.** This could result in the wrong tires being installed and lead to poor towing/driving issues, increasing the risk of a crash causing injury and/or property damage.

Our records show the following unit is affected by this Recall and must have the corrected labels placed on the unit **prior** to leaving your Dealership.

**Dealer Campaign Responsibility**

**Federal law requires that all units in your inventory be repaired prior to delivery to a customer. If you have sold a unit recently that you have received a stock recall notice on, please contact the owner immediately to advise of the recall. In addition, please register the unit by submitting the Warranty Registration information to Highland.**

If you have any questions, please contact Highland Customer Service at 260-768-7771 for further instructions.

We certainly regret this inconvenience; however your safety is our most important priority.

Sincerely,  
Highland Ridge
