The attached revised list provides the Vehicle Identification Number (VIN) of all involved vehicles in dealer new inventory. If your dealership's BAC is not listed, then none of the involved vehicles are currently assigned to you and no further action is required.

These 2017-2018 model year Chevrolet Silverado HD Double Cab and GMC Sierra HD Double Cab vehicles may have just arrived or will be arriving shortly at their destination dealers.

Until further instructions are received, involved vehicles that are in dealers' possession (new vehicle inventory) must be held and not delivered to customers, dealer-traded, released to auction, used for demonstration purposes, or any other dealer use. All GM Certified Used vehicles currently in the dealers' inventory within the Certified Pre-Owned Inventory System (CPOIS) will be de-certified.

Instructions for releasing the involved vehicles from this stop delivery will be provided in the future.
