STOP DELIVERY ORDER

On September 14, 2017, GM ordered a stop delivery of certain 2017-2018 model year Chevrolet Silverado HD Double Cab and GMC Sierra HD Double Cab vehicles.

Additional vehicles have been removed from this stop delivery order because they were repaired at the plant. There are 191 U.S. VINs being removed from this stop delivery order. Please reference the attached list **17375 US REPAIRED List Rev02** to view the list of repaired VINs by BAC.

The attached revised stop list **17375 US Inventory STOP List Rev02** provides the Vehicle Identification Number (VIN) of all involved vehicles that remain on stop delivery order in dealer new inventory. If your dealership's BAC is not listed, then none of the involved vehicles are currently assigned to you and no further action is required.

These 2017-2018 model year Chevrolet Silverado HD Double Cab and GMC Sierra HD Double Cab vehicles may have just arrived or will be arriving shortly at their destination dealers.

Until further instructions are received, involved vehicles that are in dealers' possession (new vehicle inventory) must be held and not delivered to customers, dealer-traded, released to auction, used for demonstration purposes, or any other dealer use.

Instructions for releasing the involved vehicles from this stop delivery will be provided in the future.
