November 2017

IMPORTANT T59 SAFETY RECALL UPDATES

Brake Booster Water Shield on 11-14 Grand Cherokee/Durango

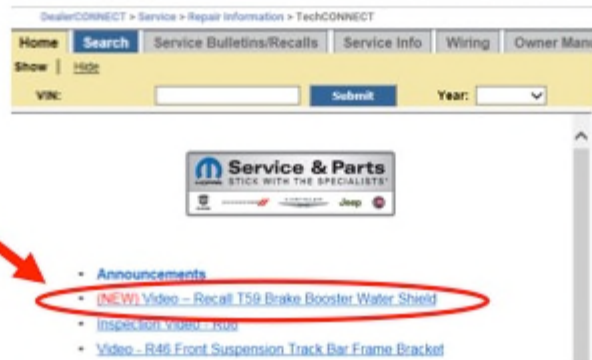

To help ensure proper inspection and repair of vehicles impacted by the T59 Brake Booster Safety Recall, below are two new resources to become familiar with.

New Installation Video

A new video has been developed and is posted within DealerConnect's TechConnect to guide technicians in the proper steps for the T59 Safety Recall. The steps covered in this 3 minute video include:

- Shield Inspection
- Shield Installation
- Brake Booster replacement
- Verification of Proper Installation (including the required picture / claim process)

This video should be a helpful resource that is located conveniently by going to DealerConnect > Service Tab > TechConnect > Announcements.

*Please also be aware that a Warranty Information Center (WIC) article has been published documenting the claim entry instructions for your warranty personnel. Please make sure to attach and retain the picture of the completed repair to the recall claim. Claim will need to be placed in RA status.

T59 Recall Part Updates

Instruction Sheet: Soon to be included in future supersessions of the Water Shield (part# CBXNP143AA will be soon superseding to CBXNP143AB), packaging will include an instruction sheet to ensure proper alignment and installation of the water shield.

Brake Booster Ordering: Please note that the Brake Booster and Installation Package (part# CBXNP141AD and CBXNP142AA) are only expected to be required in a small percentage of T59 safety recall repairs. Large stock orders should not be needed.

- ❑ Please ensure all applicable Personnel including Service Management, Advisors, Technicians and Parts Personnel are aware of this communication to ensure vehicles are properly repaired.

Remember to refer to DealerConnect's  for all Campaign Communications.

FCA appreciates your continued support to complete all applicable recalls on these customers' vehicles!
