

## IMPORTANT SAFETY RECALL INFORMATION

**December 14, 2017**

**Dear Maserati Dealer:**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act (in the U.S.) and the Motor Vehicle Safety Act (in Canada).

Maserati S.p.A. and Maserati North America Inc, have determined that a defect that relates to motor vehicle safety exists in model year 2015, 2016 and 2017 Maserati Quattroporte vehicles, equipped with the 3.8 liter V8 engine.

Maserati S.p.A. has determined that the above described vehicles were manufactured with a low pressure fuel pump resistor that could potentially fail when the operative current reaches the maximum allowed by the resistor; in that case the resistor failure comes as the result of cycle time and temperature fatigue. If the resistor fails, the low pressure pump will stop working due to an open circuit (resistor failure) and without the fuel pump working, the engine will lose power and eventually stall.

The proposed remedy is a new fuel pump resistor cable assembly. The remedy will be performed free of charge to the vehicle owner. We will, of course, reimburse you for the labor necessary to carry out this recall campaign. The necessary components for this recall are currently being made available to Dealers, and owners will now be directed to call their Dealers for repairs.

**Maserati dealers must ensure recalls are completed after having been notified by Maserati North America, Inc. (MNA) that a safety-related defect or noncompliance exists in any motor vehicle or item of replacement equipment in the dealer's possession at the time of notification. In MNA's case, this notification would typically be made by the issuance of a recall notification in the form of a Technical Bulletin.**

## IMPORTANT SAFETY RECALL INFORMATION

Under the National Traffic and Motor Vehicle Safety Act of 1966, as amended, (or in the case of Canadian vehicles, Motor Vehicle Safety Act S.C. 1993, as amended), if a recall campaign is announced by MNA, **dealers must ensure that all recalls on new vehicles and new items of replacement equipment are completed BEFORE delivery to the consumer. This means that dealers may not legally deliver new motor vehicles or new items of replacement equipment to consumers with an open recall.**

The **Safety Act** also prohibits dealers from selling or leasing the motor vehicle or item of replacement equipment, unless and until the open recall has been completed BEFORE delivery.

Under the terms of the Certified Pre-Owned (CPO) program, CPO vehicles with an open recall may not be sold or delivered to the consumer.

Finally, MNA dealers **should not sell or use parts that have been recalled by MNA.** Please follow the specific instructions provided by MNA on the return or disposition of the parts.

**Obviously, if you have any of the affected vehicles in your stock, you must not sell them until you have performed the necessary repairs on the vehicle.** If you have already sold any of the vehicles with the indicated VIN in the enclosed instructions and have not yet sent in the new owner information to MNA, please do so at once so we may notify these owners.

Thank you for your cooperation.

Sincerely,

Danielle M. House
