Dear «Dealer_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2018 Carbon, Fuzion, and Raptor Fifth Wheels. As a result, Keystone RV is conducting a safety recall.

***Reason for
this recall***

It has been decided that the vehicles in the recall population may have an incorrectly welded suspension equalizer installed on certain triple axle toy haulers. Under certain stress conditions during travel, the suspension may fail leading to an increased risk of property damage and poor vehicle handling. The vehicles included in the recall are:

2018 Carbon Fifth Wheels – 387, 417

2018 Fuzion Fifth Wheels – 414, 417, 427, 4141

2018 Raptor Fifth Wheels – 398TS, 424TS, 425TS, 426TS, 428SP

Serial Number Ranges:

2018 Carbon JR805467 - JR805474

2018 Fuzion JF810408 - JF810472

2018 Raptor JR800273 - JR800353

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. **Important:** If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery. The unit VIN(s) our records indicate are presently in your inventory or have been sold are as follows:

«VIN1» «VIN2» «VIN3» «VIN4»
«VIN5»

-- Serial numbers with ‘*’ have been retail sold --

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Enclosed is a copy of the Safety Advisory #17-305, which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the enclosed Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY
