Subject: RE: Recall

Good Afternoon,

As you probably already aware, Walter Kidde has issued a massive recall on fire extinguishers. This recall has impacted many RV manufacturers, which includes us. We have filed a recall on the NHSTA portal and will be reaching out to customers via email. If you have a unit that is affected by the recall, reach out to Walter Kidde at 855-271-0773 or visit their website at www.kidde.com and they will replace the fire extinguisher for free. If you have any questions or concerns, please feel free to contact us.

Regards,
NüCampRV Team
