

## IMPORTANT T73 SAFETY RECALL PART RETURN UPDATE

### PASSENGER AIRBAG REPLACEMENT FOR '18 JEEP COMPASS (MP)

---

To help ensure timely inspection of air bags returned to the Parts Distribution Center (PDC) as part of Safety Recall T73, FCA requests each dealer attach a label to the box of the air bag being returned as well as the cage that the air bag(s) is loaded into. This is listed on page 5 of the Safety Recall Instructions.

Please print the label below as an alternative in case the enclosed labels are lost or not received. attaching this to the box and the cage that the airbags are loaded into at the time of return will help ensure a more timely inspection of the airbag at the Facing PDC.

**FCA appreciates your continued support on this campaign!**

**Please click [HERE](#) to access your T73 Recall Label. Be sure to attach to any boxes of air bags relating to Safety Recall T73.**

## T73 Air Bag Return Label (to be printed)

# MP Airbag Campaign

Please attach to each box prior to return. Also, attach to the cage that the airbags are loaded into.
