

UPDATE: REMEDY TIMELINE FOR T79 SAFETY RECALL

BRAKE TRANSMISSION SHIFT INTERLOCK FOR 2009 - 2018 RAM TRUCKS

Please refer to the below timeline as it relates to the T79 Safety Recall (Brake Transmission Shift Interlock – BTSI) on Ram 1500, 2500, 3500, 4500, and 5500.

T79 SERVICE REPAIR TIMELINE

The T79 Safety Recall is being launched in a *phased* approach. Please see the remedy timeline below.

VEHICLE MODEL YEAR	RECALL STATUS
2017 - 2018 MY	Launched on 2/18/2018
2015 - 2016 MY	Launched on 4/13/2018
2013 - 2014 MY	Interim Status: <i>Launch estimated in June 2018</i>
2009 - 2012 MY	Interim Status: <i>Launch estimated in August 2018</i>

Vehicles that are a 2009-2014 MY do not currently have a remedy available and the recall is in interim status. Please encourage customers to utilize the parking brake as instructed in the interim letter.

Please utilize normal service diagnosis procedures for complaints outside of the recall concern.

T79 PARTS AVAILABILITY

For 2015 - 2018 MY vehicles, very few vehicles are expected to require a BTSI (part# CSZHT791AA or CSZHT792AA). Please ensure proper inspection is performed as noted in section “A” of the service instructions prior to ordering parts. Parts are available but currently on a 10 in 7 days restriction.

FCA appreciates your support in this campaign!
