

**Remedy Timeline for T79 Safety Recall**By **Mopar** on Tuesday, February 20, 2018

FEBRUARY 2018

**REMEDY TIMELINE FOR T79 SAFETY RECALL****BRAKE TRANSMISSION SHIFT INTERLOCK FOR 2009 - 2018 RAM TRUCKS**

Please refer to the below timeline as it relates to the **T79** Safety Recall (Brake Transmission Shift Interlock - BTSI) on Ram 1500, 2500, 3500, 4500, and 5500.

The T79 Safety Recall is being launched in a *phased* approach. Please see the remedy timeline below.

VEHICLE MODEL YEAR	RECALL STATUS
2017 - 2018 MY	Launched on 2/18/2018
2015 - 2016 MY	<i>Interim Status: Launch estimated late Q1, 2018</i>
2013 - 2014 MY	<i>Interim Status: Launch estimated late Q2, 2018</i>
2009 - 2012 MY	<i>Interim Status: Launch estimated mid Q3, 2018</i>

Vehicles that are *not* a 2017 - 2018 MY do not currently have a remedy available and the recall is in interim status. Please encourage customers to utilize the parking brake as instructed in the interim letter.

Please utilize normal service diagnosis procedures for complaints outside of the recall concern.

**T79 PARTS AVAILABILITY**

For 2017 - 2018 MY vehicles, very few vehicles are expected to require a BTSI (part# CSZHT791AA or CSZHT792AA). Please ensure proper inspection is performed as noted in section "A" of the service instructions prior to contacting Mopar for parts ordering via the [campaignteam@fcagroup.com](mailto:campaignteam@fcagroup.com) inbox.
