2014 - 2017 (VF) Ram ProMaster Van  
2015 - 2017 (VM) Ram ProMaster City Van  
vehicles equipped with a Kidde fire extinguisher.

### **REASON FOR THIS SAFETY RECALL**

Some of the above vehicles may be equipped with a Kidde brand fire extinguisher. Some Kidde brand fire extinguishers with plastic handles recalled by Kidde may become clogged or require excessive force to discharge and can fail to activate during a fire. In addition, the nozzle can detach with enough force to pose an impact hazard. According to the Kidde recall 17E-062: If a fire extinguisher does not function properly, it is possible that someone could be injured or killed in a fire.

### **SERVICE ACTION**

FCA US will conduct a Voluntary Safety Recall to replace suspect Kidde brand fire extinguishers with a new Kidde brand fire extinguisher with a steel nozzle. The new fire extinguishers for this safety recall are not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
