***** Campaign Summary *****

Nissan conducted a voluntary safety recall campaign to replace the right, left, or both side curtain air bag assemblies on specific MY2018 Nissan Versa Note (E12) vehicles. Due to a supplier manufacturing issue that has been corrected, a small number of vehicles may have been equipped with side curtain air bag assemblies containing inflators that do not meet specification. The top hat diffuser may detach from the inflator, resulting in an improper deployment during a crash.

Note: This recall is not related to the Takata Air Bag Inflator Recall.

 - After the customer is informed, retail customers can continue to drive their vehicle at their discretion.
