IMPORTANT SAFETY RECALL NOTICE

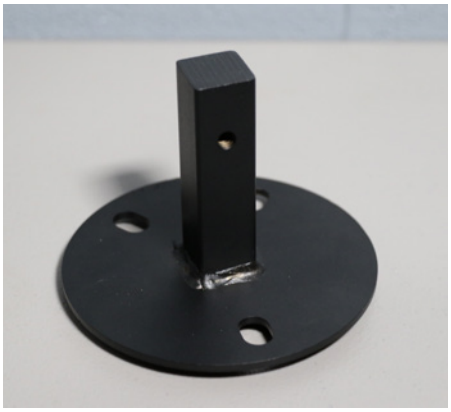

MORryde JEEP SPARE TIRE MOUNT JERRY CAN HOLDER

RECALLED PART

C-Channel

NEW PART

Solid Bar

Dear MORryde Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

MORryde has decided that a defect which relates to All Spare Tire Mount Jerry Can Holders sold by MORryde utilizing the C-channel stem that protrudes through the spare tire are affected by this recall. The Jerry Can Holders were sold as MORryde part numbers **JP54-004** & **JP54-005** and sold for Jeep aftermarket installation. These products may have been purchased through Retrofit Offroad or through Extreme Terrain under the "Barricade" label.

REASON FOR RECALL: The C-channel that protrudes from the flat plate mounted between the spare tire and the vehicle spare tire mount may break free during transit causing damage and possible injury to other motorists.

INSPECTION: Inspect the underside of the stem sticking through the opening of the spare tire. This can be done by looking from below the Jerry Can Tray or by removing the Jerry Can Tray Assembly. If there is a nut welded to the inside of the C-channel, the part is affected by this recall. If the part is a solid bar, then no action is required.

Recalled part shown above as installed.

REMEDY: An upgraded solid bar mount will be provided at no charge for all affected parts. Discontinue use of the current part immediately to prevent damage or injury. Contact MORryde Customer Service for a replacement part and please be sure to note where the product was originally purchased.

If after having attempted to take advantage of this recall you believe you have not been able to have your defective part remedied without charge and within a reasonable amount of time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., S.E., Washington, D.C. 20590 or call the toll-free vehicle safety hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to http://www.safercar.gov.

We apologize for any inconvenience this safety recall may cause, but your safety is our first concern.

TOOLS REQUIRED:

The replacement can be done entirely with the lug wrench used on the wheels nuts.

PARTS LIST:

(1) JP57-001 replacement

Step 1
Remove the Jerry Can or anything else from the tray.

Step 2
Using a lug wrench or similar, remove the ½" bolt and lock washer holding the tray and tray mount assembly to the stem protruding through the vehicle spare tire.

Step 3
Remove the lug nuts holding the spare tire to the spare tire mount and remove the vehicle spare tire.

Step 4
Pull off the defective Jerry Can Mount adapter plate and stem and discard.

Step 5
Place the new adapter plate and stem over the studs on the spare tire carrier.

Step 6
Reinstall the vehicle spare tire over the adapter and stem and tighten the lug nuts.

Step 7
Reinstall the tray and tray mount assembly to the new adapter and stem using the ½" bolt and lock washer removed in Step 2.

NOTE:
It is recommended to periodically inspect and tighten any bolted connection.

An upgraded mount will be provided at no charge for all affected parts. Please give us a call at **574-293-1581** or send an email to **Warranty@MORryde.com** to receive the updated version.
